

DESCRIPTION

The distinctive differences with our PU NORMAL film is strong adhesive and increased work efficiency. PU FAST is the thinnest film of O-SUNG products, which is 10microns thinner than normal type, a good choice for light and stretchy fabrics. When working with OSPF, sticky backing makes weeding your intricate design easier.

Apply with a 30 °C lower heat press for 5 secs to save time, still maintaining the merit of Polyurethane film.
